ITassist247

COMPLETE MANAGED IT & CYBERSECURITY

Technology that works. Security that protects.

A complete, proactive technology partnership for growing businesses.

ONE PARTNER. ONE ACCOUNTABLE TEAM.

Day-to-day support, infrastructure management, layered cybersecurity, and business continuity brought together under one responsive team.

A COMPLETE TECHNOLOGY FOUNDATION

MANAGED IT OPERATIONS

Reliable, proactive support for the technology your team uses every day.

- Monitoring, maintenance + patching
- Help desk + end-user support
- Microsoft 365 / Google Workspace
- Networks, Wi-Fi + vendors

LAYERED CYBERSECURITY

Multiple layers of protection to prevent, detect, and respond to threats.

- Advanced endpoint protection + EDR
- 24/7 security monitoring + response
- Security awareness + risk reduction
- Vulnerability + threat visibility

EMAIL + CLOUD PROTECTION

Protection for the accounts and communications attackers target most.

- Anti-phishing + malicious-link protection
- Account compromise monitoring
- Cloud email + data backup
- Identity + access guidance

BACKUP + CONTINUITY

Practical safeguards that keep data recoverable and your business moving.

- Endpoint, server + cloud backup
- Recovery planning + restoration
- Lifecycle + standards guidance
- Ongoing IT + security planning

WHAT YOU GAIN

REDUCED RISK	LESS DOWNTIME	FASTER SUPPORT	PREDICTABLE MONTHLY
Layered protection	Proactive management	A team that knows you	Customized to your environment
